APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 59671 is issued subject to the terms and conditions imposed in said Permit 59671 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued subject to the final determination of the right under 04691 as established in an adjudication of the source.

The place of use is limited to the irrigation of 7.5 acres within the described place of use.

(CONTINUED ON PAGE 2)

(PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.098 cubic feet per second, but not to exceed 30.0 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

August 27, 1999

Proof of completion of work shall be filed before:

September 27, 1999

Application of water to beneficial use shall be filed on or before:

August 27, 2002

Proof of the application of water to beneficial use shall be filed on or before:

September 27, 2002

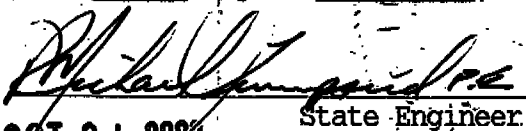

Map in support of proof of beneficial use shall be filed on or before:

September 27, 2002

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,
State Engineer of Nevada, have hereunto set

EXHIBIT "A"**PERMIT 59671**

A portion of this right, consisting of 30-acre-feet, was purchased by Theodore H. Stokes. The remaining portion is still owned by George and Christine Thiel and this extension is being filed on behalf of all owners.

An application to change has been filed to transfer the Stokes portion of this right to his property. Once it is approved, Proofs of Completion and Beneficial Use will be filed on the remaining Thiel portion of Permit 59671. Until such time as the change application transferring Mr. Stokes portion is approved, an extension of time of one year is respectfully requested in which to file the necessary proofs and maps.
